CNMI Career Pathways Guides

Career pathways are integrative systems created to support secondary school students in enrolling in post-secondary transferable curricula and gaining practical work experience while obtaining their high school diplomas. **Career pathways** are designed to streamline and minimize the steps required for students to advance into jobs that align with their career aspirations. With specialized certifications gained upon high school graduation, students are ready to enter the workforce or seamlessly transition into college. A goal in establishing career pathways is to unify agencies across workforce development, education, and policy to determine processes and influence legislation that benefit students at all levels. Preparing students with marketable skills upon completing secondary school allows the students ample time within their careers to build upon an early foundation of basic knowledge. Providing adequate training and opportunities for certification keeps youth engaged with the workforce and supports them in building sustainable careers that contribute to the economic growth and future of the Commonwealth of the Northern Mariana Islands (CNMI). This curriculum guide will provide resources to guide the instruction of the pathway courses and pathway related activities and connections to post-secondary education and training.

- 15.7 Apply leadership skills through involvement in community and/or school activities;
- 15.8 Demonstrate techniques for making and maintaining a positive first impression; and
- 15.9 Explain business policies to customers and vendors.

Course 4: Hospitality and Tourism Practicum Student Standards

Course Title: Hospitality and Tourism Practicum

Course Credit: 1

Course Description

This course provides students the opportunity to demonstrate human relations, communications, and employability skills necessary for entry-level employment in the hospitality and tourism industry. Additionally, it will enhance the instruction and competencies developed through classroom instruction.

The first three pathway courses should be completed prior to enrollment in Hospitality and Tourism Practicum. Each student intern is required to have a job performance skills plan, signed by the student/intern, teacher, and employer. This plan should include competencies developed through classroom experiences, a list of on-the-job duties and tasks to be performed, and identification of student performance standards. The Hospitality and Tourism Practicum may provide paid or non-paid work experience based on the needs of the student and availability of positions.

Standards and Benchmarks

1.0 Perform critical job skills. The student will be able to:

- 1.1 Apply literacy skills in technical reading, computing, and calculating;

4.0 Demonstrate skills in multiple hospitality and tourism pathways. The student will be able to:

- 4.1 Explore multiple jobs within the field including, but not limited to, food and beverage, groundskeeping, front desk, and housekeeping. Understand the demand for all careers in the industry; and
- 4.2 Practice skills in each pathway offered in the industry.

5.0 Develop a professional portfolio to showcase the work experience in the practicum. The student will be able to:

- 5.1 Write a reflection and collect work sample artifacts that align with the application of academic and technical knowledge and skills. Include examples of pathway course skills and knowledge;
- 5.2 Identify 21st Century Skills used in the practicum assignment and discuss why the skill is important to career success; and
- 5.3 Classify personal and social skills used in the practicum assignment and discuss their importance to career success. Provide examples of how social skills were used to enhance the customer experience.

**6.0 Where applicable, embed an industry certification in the work experience.
The student will be able to:**

- 6.1 Work with industry partners to identify needed industry credentials and work towards completion of study materials or attend professional development sessions to prepare for certifications or badges;
- 6.2 Complete all study sessions to prepare for the industry exam; and
- 6.3 Participate in the exam session in order to utilize the industry credential for advancement in the industry.

CNMI Hospitality and Tourism Four-Year Plan

A four-year plan refers to the outline of courses that a high school student will take to complete the necessary requirements for high school graduation, per PSS policy (shown below). The four-year plan allows students to personalize their high school experience, incorporate classes that will lead to their future college major and career, and ensure that they graduate on time. Student schedules include four blocks of instruction per day. Students can earn eight credits per year, earning one credit per block per semester.

A minimum of twenty-eight (28) credits are required for graduation from the 12th grade. Required courses constitute twenty-three (23) credits of the minimum credit and are as follows:

Required Courses	Credits
English - Composition I and II - Integrated literature and composition – 9 th - Integrated literature and composition – 10 th - Technical research/business writing – 11 th - American literature – 11 th - British literature- 12 th	8 credits

Work-Based Learning

Work-Based Learning (WBL) provides opportunities in which a student completes meaningful tasks in a workplace. Such programs are designed to prepare participants for full-time work and help them acquire the knowledge and skills they need to enter or advance in particular career fields. Work-based learning can be a component of a continuum of lifelong learning and skill development for a range of learners, including K–12 students, young adults, college students, and adult jobseekers.

WBL experiences reinforce the 21st Century Skills by allowing students to apply these skills in a real-world business or service-oriented work environment.

Connecting WBL to 21st Century Skills

Learning Skills:

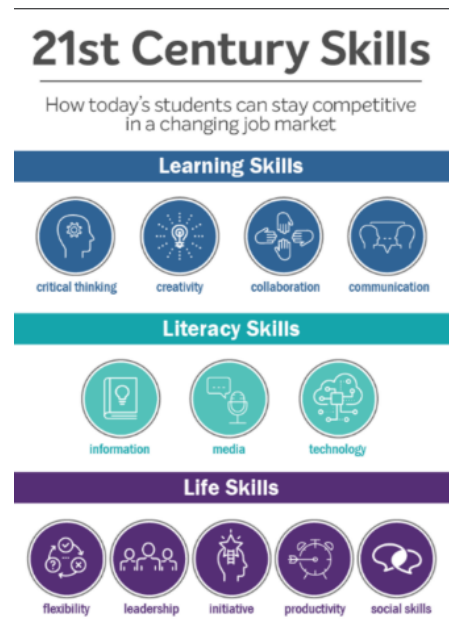

- **Critical Thinking:** Develop a project to meet a community need or solve a community problem.
- **Creativity:** Publicize/advertise project; solve problems; present findings.
- **Collaboration:** Work with community members, peers, and mentors.
- **Communication:** Write and present proposals; make requests and get permissions; publicize and present final project.

Literacy Skills:

- **Information:** Access and evaluate information to use to solve problems.
- **Media:** Understand how and why media messages are constructed in a real-world setting; create media products to communicate a message.
- **Technology:** Use technology as a tool to research, organize, evaluate, and communicate information.

Life Skills:

- **Flexibility:** Adapt to varied roles, job responsibilities, and schedules; incorporate feedback effectively; understand and balance diverse views.
- **Leadership:** Set and meet goals; prioritize, plan, and manage work to achieve the intended result.
- **Initiative:** Go beyond completion of assigned tasks to advance responsibility.
- **Productivity:** Monitor, define, prioritize, and complete tasks.
- **Social Skills:** Know when it is appropriate to listen and when to speak; conduct oneself in a respectable, professional manner.

Work-Based Learning Framework

WBL experiences offer students the opportunity to explore career options and develop critical academic and technical skills in collaboration with community and/or industry involvement. As such, students should have access to a series of structured WBL experiences that deepen their knowledge and allow them to apply classroom theories into practice. At an early level/grade, WBL experiences can help students develop a broad understanding and awareness of industries and possible careers that are available to them. Over time, these experiences narrow in focus as students find a good fit, learn what type of postsecondary education is necessary for success, and begin practicing the academic, technical, and professional skills necessary to enter their identified careers.

Career Awareness

Career awareness activities build knowledge of the variety of careers available and the role of post-secondary education to broaden student options. Some examples of career awareness activities are guest speakers, career days or college and career fairs, field trips and workplace tours, videos or presentations about various professions, and opportunities to conduct informational interviews. Career awareness activities ideally lead to WBL experiences where students can deepen their knowledge of career pathways and begin applying skills learned in the classroom.

Career Exploration

Career exploration experiences encourage students to develop personal career interests, a better understanding of pathways to a chosen career, and the workplace readiness skills needed to make informed decisions regarding secondary and postsecondary education and training. These experiences are typically of shorter duration.

Career Preparation

Career preparation experiences deepen student knowledge and develop skills necessary for success in employment and postsecondary education. These experiences are recommended for students who have a clear goal of entering the workforce directly after high school or of enrolling in a closely related postsecondary training program. These experiences are structured primarily to give students extensive practice in applying fundamental technical and practical knowledge and skills in their chosen careers.

Career Training

Career training consists of any activity that allows a student to train for employment and/or post-secondary education in a specific range of occupations.
